

COLLECTING AUSTRALIAN TREASURE

Scale 1cm: 500km

You are a pirate, sailing the seven seas. In Australian waters, you were attacked and you lost your most prized possessions. Use the map above to help you collect them again.

1. Choose 5 treasures to collect. Draw lines to collect them and use a ruler to measure the distance you need to travel. How far do you need to travel to collect all 5 treasures? (Use the scale and estimate if necessary)
2. How far do you need to sail to collect all treasures that are located at sea? Draw your route to make it easier to measure.
3. Find the shortest route to collect all treasures on this map.
